If you have used Zoom in previous courses and created an account, the initial sign-in process requires a couple of additional steps. (See below). If you have not used Zoom before and did not create an account:

1. When you have loaded the software in the steps above, the "Join a Meeting/ Sign In" window will appear. Click Sign In.

2. A new "Sign In" screen will load. Click Sign In with SSO.

3. In the next window, type 'unm' in the text field.

4. Click Continue.

5. The UNM authentication page will load. Enter your UNM NetID and password. Click Sign in.

6. If you initiated this process by clicking the link for a currently scheduled (active) session, that session will open automatically.
